 - Graduated with a rank of 26th out of 461.

Employment

- **University of Texas at Austin**—Austin, TX
Student Associate/Developer: Spring 2005–present

I currently work for the Learning Technology Center in the College of Education at the University of Texas at Austin, contributing to a team of five students to provide service for what is known as the Laptop Help Desk. The LHD supports approximately 1,300 Education students and professors with iBooks and PowerBooks as part of the UT College of Education Laptop Initiative program.

My responsibilities include:

- Day to day troubleshooting of customer software and hardware problems.
- Managing shipments to and from Apple through the Global Service Exchange system.
- Have helped develop applications to support the workflow of the LHD team.

Skills

- **Computer Science:** Familiar with and interested in topics such as network and system security, as well as cryptography. Comfortable with learning new programming languages and concepts.
- **Computer Languages:**
 - Proficient in C and Java.
 - Past experience with C++, Objective-C, PHP, Perl, Haskell, Common Lisp, SQL, \LaTeX , and UNIX Shells.
- **Operating Systems:** Very familiar with OS X, familiar with Linux and Windows (3.1–XP).
- **Tools:** Day to day use of GnuPG and SSH, past experience with CVS and MySQL.
